

Adding important information to your NHS Summary Care Record

You already have a Summary Care Record (SCR)

Your SCR has important information about your health in it:

- **Medicines** you take
- **Allergies** you have
- Any medicines that make you ill

You might need to see a doctor or nurse who does not know you

If they do not know about your care, your SCR could:

- Stop them making a mistake, because they can see your medicines, allergies or what medicines make you ill
- Help them see your information straight away on a computer

Doctors and nurses treating you will ask if they can look at your SCR to help them treat you quickly and safely

You can choose

You can choose to have other useful information added to your SCR, including:

- Your **illnesses** and any **health problems**
- **Operations** and **vaccinations** you have had in the past
- **How you would like to be treated** - such as where you would prefer to receive care
- What **support you might need**
- **Who should be contacted** for more information about you

What to do next

If you think you want to add other useful information to your SCR, talk to your GP practice. They will add it to your SCR and keep it up to date for you

If there is information you don't want adding, let your GP practice know

For more information

- **Talk** to staff at your GP practice
- **Call 0300 303 5678**
- **Visit hscic.gov.uk/scr**
